

DRUMHELLER

ADMINISTRATION POLICY

ADMINISTRATION POLICY # A-05-04

SEWER INSPECTION AND MAINTAINENCE PROCEDURE

PURPOSE:

As per Council Policy #C-04-04 all sewer lines within the corporate limits of the Town of Drumheller will be flushed a minimum of once every four years or in identified trouble areas more often as required.

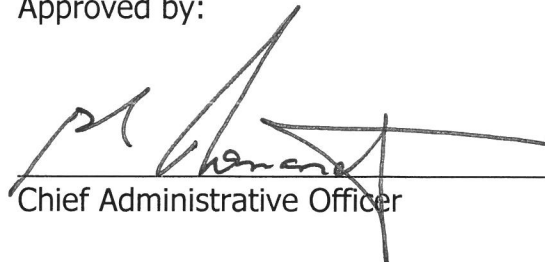

PROCEDURE:

All main sewer lines own and operated by the Town of Drumheller are flushed as a minimum of once every four years, this is completed by one of two methods.

These methods are Low Pressure, High Volume flushing with a Water Truck or High Pressure, Low Volume flushing with a Power Jet Flushing Unit/Combination Unit (hydro vac for debris removal).

Other identified trouble areas, are flushed more often, as required. Emergency and/or after hours blockages are removed and flushed as required. These areas as well as all other flushing are recorded on flushing forms and filed at Infrastructure Services Offices at #117 – 7th Avenue S.E.
